

KAMMOK

Sunda 2.0

HAMMOCK MODE

TENT MODE

Overview

Sunda 2.0 is a 2-person tent and an all-in-one hammock designed to adapt to your needs in any terrain. Advanced weatherproof construction paired with a unique ground-to-air convertible design creates a reliable home on the trail. Incredibly versatile and easy to use, Sunda 2.0 equips first-time campers and experienced backers alike to hike farther and camp in unfamiliar landscapes.

Top Features + Benefits

- Spacious, freestanding 2-person tent offers the most livable space of any tent in its category.
- 1-person, all-in-one hammock tent fully equipped to go aerial and take camp off unleveled, muddy, and rocky ground.
- New structural design allows for lightning-fast setup and transition from a ground tent to a hammock in less than 60 seconds.
- Redesigned tent pole architecture boosts wind stability during inclement weather and bolsters a seamless transition off the ground.
- New waterproof, integrated rainfly eliminates excess weight and allows for set-up in a fraction of the time.
- Unique flat ridgeline pole maximizes sit up height across the full length of the 8ft tent for ample headroom.
- Two large tent doors and larger vestibules on opposite sides offer easy in-and-out access and more storage for each camper without adding any weight.
- Two additional tie back points at the entry and two windows amplify airflow and cross-ventilation to help manage condensation.
- Redesigned bathtub floors enhance overall strength and provide additional waterproof barriers to protect against the elements.
